Abstract from the report of proceedings in Congress on Thursday, December 21, 1837. HOUSE OF REPRESENTATIVES.

"Mr. Patton, of Virginia, asked the consent of the House to offer a resolution.

"Mr. Adams objected.

Mr. Pation moved a suspension of the rules to enable bim to offer the resolution," and they were suspended secordingly Mr. Patton then offered the following reso-

lusion: "Resolved, That all petitions, memorials and

papers toucking the abolition of slavery, or the buying, selling or transferring of slaves in any Style, District or territory of the United States, be laid upon the tuble without being debuted, printed. T 14; or referred, and that no further action whatever shall be had thereon."-JOHN FAIRFIELD voted for this resolution.

When the name of the venerable John Quincy Adams was called, he arose, and amidst cries of order, anid

"I hold the resolution to be a violation of the Constitution of the United States of the right of result. my Constituents, and the People of the United States to petition, and of my right to the freedom of speech as a member of this House."

Will you by voting for the administration candidate for the Chief Magistracy of Maine, for the coming year, declare yourselves, to be in favor of the Sub-Tieasury system, the Gag upon Debate, the Denial of the Right of Petition, the Annexation of Texas, the Accession to the Presidency of John C. These are the questions, FREEMEN OF MAINE, which you are now called upon to decide. PAUSE, FONDER, REFLECT, ACT; and on your hands be the glory or the guilt of the

## The Aroestook Road.

The great benefit which our State would receive from the completion of this road, must be That JOHN PAIRFIELD, in February 1838, apparent to all. It would inpen an easy cont would begin from all parts of the country. The settlers there, would benefit the lumbering interests by diminishing the cost of their supplies they would benefit the traders, by giving them an increased amount of property to exchange They would benefit the whole State, by increasing its population, and by augmenting its property and its resources. The completion of this road is all important in reference to our North Enstein Boundary. We have, at present, no communication with the disputed territory, except through the Province of New Bronewick, by the way of Woodstock. We have no road every winter, destroy and carry away more property in timber, than it would cost to complete the road.

The Whigs are desirous of finishing this road immediately. In the last Legislature, every attempt was made by them to pass appropriations, which were constantly voted down by the Loco-

The distribution of the Turplus Rayoung ranging in the The asury of the United States after the payment of the nation. al debt, was most emphatically a WIIIG MEASURE. It was advocated by the Whig party in Congress, and it was effected by their exertions. Notwithstanding the opposition which they met from the supporters of the administration, with Gen. Jackson at their head, there were fortunately enough found in the Jackson ranks to secure the passage of the Bill enough who did not dare oppose a measure so obviously popular and just, even at the command of their chief. The great body of the Jackson party obeyed the anadate of their leader and opposed the measure and PROMINENT IN THIS BAND WAS FOUND JULY LATER THE LES. JOHN FAIRFIELD wanted the money to remain in the National Treasury, to STRENGTHEN the General Government, and to enable the Executive to perpetuate his power upon the ruin of the people's freedom Was this Republicanism ? JOHN FAIRFIELD voted AGAINST placing the money in the hands of those, and those only, who had any right to it THE PEOPLE OF THE NATION. Was this Democracy? If so, then it is Democratic to oppose the interests of the people. But this is not all. Under the Distribution Bill, the Surplus Revenue was to be paid over to the States at four different times, and in four instalments. Hefore the time arrived for the payment of the Fourth Instalment and after the first three-had been paid; the Van Burra party in Congress, procured the passage of a law by which the Fourth Instalment is withheld from the people and JOHN FAIR. FIELD VOTED FOR THIS LAW. By this vote, NINE OR TENMILLIONS OF DOLLARS are withheld from the people of this country! and THREE OR FOUR HUN. DRED THOUSAND DOLLARS FROM THE PEO. PLE OF THIS STATE!! And this is is the man who now asks the people of Maine for their suffrages to raise him to the highest office in their gift! On the 10th of September the people will answer him, and in a voice of thunder they will tell him, that no man can receive their support, who betrays their interests and that the great and glorious cause of DEMOC. RACY can never be advanced, by one whose political conduct has so plainly indicated a TOTAL ABANDONMENT OF ITS MOST SACRED PRINCIPLES,

# THE PROPLE'S MONEY! WHERE IS IT?

The administrations of Gen. Jackson and Van Buren have cost the people nearly one HUNDRED AND NINETY MILLIONS OF DOLLARS! This includes the eight years of Jackson's administration, and only one of Mr. Van Buren's whose first year of misrule has cost \$33,554,341, being an increase over the average expenditures of John Quincy Adams, of \$20,692. and if Mr. Van Buren carries out this reform for three years longer, the four years of his administration will cost the citizens of this country more than one HUNDRED AND THIRTY FOUR MILLIONS OF DULLARS!! for which the people are taxed, and for which they must pay. If the PEOPLE will now take the reforming power into their own hands, they will stop this immense waste of money.

THE CURRENCY.

What has disordered and deranged the whole covrency of the country? the loce foces say that it is over-trading, it is speculation, that has deranged the currency. Speculation and overtrading would, in any ordinary times, produce embarrassment among the people for a time for a few months and this has often been done within the last ten years speculation and overtrading would make money scarce, but would not destoy the currency itself, and render it worthless in all parts of the country. The statement is not true, that sovertrading and speculation have made the hard times and deranged the currency." THE TRUTH IS, THAT A DERANGED CURRENCY MADE SPECULATION AND OVER-TRADING AND, IS THE CAUSE OF ALL THE PECUNIARY PRESENTENT IN THE

Eight years ago we had in the United Statos the best paper currency in the world; it was convertible at all times, at the will of the holder, into gold and silver. Gen. Jackson undertook to make it better, and to make it better, vetoed the charter for a U. S. Bank, removed the deposites into the local Banks, and directed, by his Secretary Woodbury, the officers of those Banks to fost money on the strength of those deposites to the people. These local Bunks following up the recommendation of the Secretary of the Treasury, did loss and put into circulation nearly double the amount of money they had ever before had; they felt secure, because they had the government funds in their vaults to make good their paper as they thought, and they had the recommendation of the government, and the desire which all corporations would have, and istration have not a majority in either branch of dividuals too, to make money by the operation. The country was flooded in 1835 with the bills of these banks, all sorts of property rose to an astonishing height, everteading and speculation were the EFFECT and not the CAUSE OF A DERANGED CURRENCY. The currency was deranged in 1835 because there was too much of it, and because there was not soundness in it at that time, although it required subsequent events to prove it so which events have transpired, to the rum of thousands, and the present pecuniary distress in all quaiters of the United States. The hard times, then, are not uttributable TO THE PEOPLE, As the loco focos sey, BUT TO THE GOVERNMENT of the people. They have been produced by an attempt to establish a new system of finance in the country to destroy a national Bank which had a capital of thirty fire millions, and expply its place with three hundred local Banks which were to divide the public moneys among them this system has failed, atterly failed, and the people are now suffering from experiments matisfully cominienced and madly prosecuted. Mr. Van Buren how says, Congress can be norping for HE PROPLE IN REGARD TO THE CURRENCY and in his last message to Congress, said he should refrain from recommending any measure to restore the currency and commerce, from the want of constitutional power. All former Prelidents have recognized the power of Congress to establish a uniform cutrency. Forly years out of the fifty we have lived under this constitution we here had . National-floor and a sound euroseey, the wish-was from our of him we have beam and with great facility ver dregated the sportion of him we have departed as local institutions and mere the fit is of a Univeral Bank, as were, as we now are, with a bankrupt government, broken merchants, undurient money and irredeemable shirt planters. Is it true then, that over-trading and speculation have rendered the government of the United States bankrupt and compelled Congress to issue twenty millions of treasury notes, or shin planters, to defray the current expenses of Government! last this that speculation and overtrading have made the Treasury of Maine banks rupt and compelled the Legislature to issue scrip to pay the wheat bounty ! Is it true, that speculation and over-trading in 1035 have made not a pressure merely, for three yours, but a disordered and Dragher of the ATING MEDIUM. from which the windhopic the for erat lumbers a end that yether. bate sunered, and eve still appering. Let every cannot then think of this

... re-near is a casuge of rulers for nothing but a change of men can edect a change of incasores. JOHN FAIR-FIELD has been the uniform advocate and supporter of these ruinous measures. If you vote for John Fatherteld on the 10th of September you vote for their continuance you virtually vote for the sub-treasury system, WHICH HE IIAS MOST ZEALOOSLY ESPOUSED. If you appase his election, you express yourself in favor of a uniform currency, a well regulated system of Credit and a return to commercial prosperity. \*

# - TO THE PUBLIC.

We have this morning seen a handbill plirporting to be signed by Jonathan Chase and gworn to before Janes Merrill, in which he is in the Whig and Courier on Tuesday the 4th Sust "was a base falsehood and without any founalation whatever ' The facts in relation to Mr. Thage's letter are as follows. He came into the effice of the Whig and Courier on Monday af termoon, and hunded to Mr Edwards the letter, signed by him, Mr Edwards in his presence wrote the remarks which preface the letter and then read them to Mr. Chase who agiled and assented to the truth and correctness of the statement" It was all a voluntary act on Mr. Chase's part, and we not believe that Mr. Chase would thus act of his own free will, and then deny his own words and statement

In this handbill be is made to say that his own statement, by him signed, and now in our post session, was false and untrue, when, too, it is well known, that there is no such man a justice of the peace in this county by the name of Janus Mercill, that it purports to have been sworn to on the 7th inst. and was printed here on the some night, and Mr Chase y residence being about 40 unles from Bangor, we cannot but believe the whole to be A MOST FOUL AND ATROCIOUS FORGÉRY. Below we give the statement of Mr. Hamlin, the Land Agent which speaks for itself, and republish the genune statement of Mr Chase as it appeared origmally in our paper. Believing that TRUTH WILL EVER PREVAIL over falsehood and d-ception, we make no further comments. If the latter statement of Mr Chabe is true, he has practiced a most gross paception on tits Pag-PLE-if it is a rosarry, it is perfectly in character with the DESPERATE PARTISANS of the Loco-foco party.

#### To the Public.

I have just seen a statement purporting to be signed by Jonathan Chase, in which, he save, "that he saw him, and he [the Land Agent] said he understood that I had been electroneering against them and could not employ me any long er, if I apposed them "

On Tuesday evening list, Mr Chase accosted me on the side walk and informed me that he statement. I knew nothing about it, until after he left it at the write omce, and never said to him, that he could not be employed, any longer by the State or myself, and so for as said statement refers to me, the same is whosty Palsk. ### The People ARE Coming.

JONATHAN CHASE, Feg of Howland, has called at our office and requested us to publish the following card, which we do with pleasure. It speaks for itself. Mr. Chave has always been a consistent Republican, and has acted with the party who falsely lay class to the name of "dem estat," until he has become disgusted with their destructive policy and niessures. He acts with them no longer nor could be consistently. Mr. Chase is not alone. Hundreds are taking the same honorable stand. Mr. Chare was a delegate in the resent locofoco convention at Levant.

HOWLAND, Sept. 3, 1838. Mr Editor It has been reported far and near that I have been traveling through the north took road, on an electroneering tour and that I should not only vote ldr the Lacofoco candidates myself, but that I have been trying to get the settlers wild laborege on the Armstonk Road to come out to Lib oin and vote for Mr. Pairfield and the Locofoco candidates for Senators. Lives in the world, to kill, to kill ! TANIS system does indeed five still and is practi-Red by the very men who laugh at Doctor Sangrado as a visionary fool. The immiculate Figures 4 to this truth be impressed upon every used that all pain and weakness proceed front the presence of morbid, stagmant and corrupt homors IN THE BODY by which the circulation of the blood is impeded, and that the only sensible method is to remove them from the stomach & bowels, then take

Brandreth's Pills concocted forth From the pure products of the earth, They own no after sad affoy.

They often save, but he er destroy ! BLUEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood," Levit-cus, chapter xvii v 11. When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated bleeding will no long-er be thought of as a remedy for diseases, for in violent inflammations, eight or ten of them will take, in the course of two or three hours, more of the impure humors from the body, by the stomach and boachs, than bleeding to the extent of forty counces could possibly have done and it should be remembered that the Polls remove ONLY those parts from the blood which were the cause of mflammation, whereas bleeding removes the essential parts also. How great the prostration of all the corporeal powers after a copious bleeding! On the contrary, what againty and strength is felt after a dose of this medicine, the body is indeed hightened of a load. Nothing is equal to ridding the in ared humors with a vegetable medicine of this kind, which 84 years have proved never to do injury, but always good. Is the pulse too high?

A dose of these Pills will bring at down. Is it too low? the same means will increase it to a proper standard. Is it tremuloas showing nervous excite-

ment? the Pills.by soothing the system will allay it.
Thousands of the most respectable crizens of the
United States will be referred to with pleasure by Dr. B who have for many years been in the habit of being bled as often as four times in a year, and whose constitutions in consequence, were becoming weaker and weaker, but who, since they have made use of these Pills, have never lost a drop of their precious blood. When any of their old symptoms appeared, instead of running to a Doctor and havnig a vem opened, they have swallowed six or eight Pills, which soon removed the vinated humors that were impeding the blood in its circulation. Those -ensible people simply by the use of these invaluable Pills, are increasing every day the powers both of hody and mind which, by the practice of bleeding,

were both her oming dreadfully impaired. The following cases of cure by the use of Brand reth's Pills alone, are submitted with respect, to the unprejudiced portion of the Boston public

TILE most safe, effectual and economical remedy for diseases of the Human Constitution, that has ever been discovered

These Pills are composed entirely of materials extracted from Medical Plants, and are warranted not of Greenwich Ct , deserves, by all persons, a care- to contain one particle of mulcury or any mineral ful nerusel. The most prejudiced must own that substance. Dr kingley, the inventor of this value of these Pills, which by the able ignificant, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the tunguous of the liver; or in other words an in

So well is this understood that it is common for persons to say when they feel unwell that they are hous meaning that they have soo much bile in the performed the patient becomes weak and emaciated Lingley deut that the famous Hygean Theory so called that imports of the Hood is the cause of all diseases," is a great absuidity. Every one who reflects upon the effect and not the cause of the disease the functions of the liver are deranged, and the flow of fulle facreased, it is often taken up by it e absorbe ent vessels and carned into the circulation, and be comes mingled with the blood as in Jaundice, hen the national shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the hile, and to remedy it you must correct the secretion of the liver and restore it to a healthy state.

Dr Kurgley bas speat much time in experiment-सह with different regatable medicines, for diseases of the liver, and now offers his Universal Family Pills as the hest, most convenient and cheapest medicine that can be prepared for general use; and in offering them to the public, he is actuated more by benevolent than pecuniary motives, as the prices of the medicine will slinw.

Dr Kingley flatters himself that his long expermenting with vegetable medicines has enabled him Vogetable Universal Pill for upwards of forly years to discover the true and only substitute answering all the purpose of mercurals, without any of their attendance vits. One great quality of his family Pills is, that they have the alterative principle com bined with their cathactic or operative quality, so hat they not only cleanse the stomaclr and bowels by purging, but they regulate the liver, change the morbid secretions, strengthen the digestive organs, purify the blood, invigorate thesisculation, and give one and energy to the pervoussystem
